

## THE MOST COMPLETE GPS TRACKING SOLUTION

Every fleet needs at least a basic GPS tracking system in the event of theft recovery, ensuring driver safety, safeguarding against employee litigation, getting savings from insurance policies and helping to boost productivity.

We provide real-time GPS tracking by monitoring vehicles, assets and workforce location, speed, number of trips, travelling distance, engine status and more useful data in a single screen.

Everything you need in one place with Overdrive mobile app.

- Vehicle ignition
- Vehicle status tracking
- Vehicle speed traveling
- Real-time location tracking
- Trip view
- Vehicle setting
