Overdrive

Company Profile

About Overdrive

Overdrive is a leading Internet Of Things (“IoT”) company in Asia that connects things, such as people, vehicles, facilities and other assets into a mesh network to offer real-time data on a cloud platform. Our platform is configured to optimally deliver business objectives such as real-time tracking and monitoring, exception alerting and command centre visualization.

Our technology is unique because of our open architecture that is able to ingest both in-house and partnered intelligence modules together and with an ability to tweak device-level firmware and connectivity — making our platform highly robust and scalable.

Who Are We

A leading IoT company that provides end-to-end customised solution provider company for smart business and smart living.

What We Do

Specialises in Fleet Management, Assets Monitoring, Environmental Sensing, Vehicles Monitoring, Real Time Location System and more.

Where Are We?

Started in 2015, we have expanded and set foot in Singapore, Malaysia, Belarus, Indonesia, Myanmar.

Our Products

OverPax

For People

We provide end to end transportation solutions for moving people safely, effectively and efficiently. Equip your workers, children or even grandparents with the ability to send precise location information from anywhere.

OverWheels

For Vehicles

With this, you are able to fully control your fleet of vehicles. Find out where your vehicles are, their estimated time of arrival, how fast they are going, if they need to be serviced and even the temperature of on-board cargo. Beyond tracking, we improve efficiency and reduce cost.

OverGuard

For Facilities

OverGuard is Overdrive's Real Time Location System. It is the guardian angel that watches over your assets, inventory, facilities, warehouses, buildings and everyone in it. Track, measure and analyse crucial data in your site on any device anytime anywhere.

Why Overdrive?

Highly Robust & Scalable

We enable any sensors and firmware to be connected to our platform which differentiate us uniquely.

Easy Integration

Reduce the time required to build a market ready solution or have the opportunity to customise solution based on your business requirements.

Detailed Analytics

We don't only build world-class solutions, we do focus on end user and churn out data into meaningful insights. These valuable insights can help you shape the success strategy of your business.

Partners & Clients

From MNCs, government agencies to start-ups, we have more than 36,000 devices connected to our platform. At Overdrive, we recognise that our clients are our partners, and play a vital role in the creation of our world-class solutions. We are happy to provide all of our clients with tools and services to make you more efficient, knowledgeable, and above all, help to sustain a close, productive relationship with Overdrive.
